

Instructions for Measurement and Data Analysis Lab.

Marks Split up for the Lab

Record Book	20 Marks
Observation Book	15 Marks
Viva	15 Marks
End Semester	50 Marks

Record book

Students should bring record book with previous week experiment written on it and should submit for correction. Record book Carries 20 Marks.

Observation book

Students should also bring observation book with the present lab experiment (to be conducted on the day) written on it.

The observation book will be checked/evaluated on the day of lab in the beginning itself for its completeness. Observation book carries 15 Marks.

In observation, student must write Experiment title, Equipment/List of apparatus, Procedure, Tables, Diagrams/Figure, Equations/formulas and important theory (not necessarily full).

Viva

Viva carries 15 Marks. A viva would be conducted from time to time for the experiments, students have already done.

General

Students must know the allotted experiment for the next lab before leaving the current lab.

Students are encouraged to bring their own laptop for doing computational work for the lab.
